Mesa County, Colorado is a wonderful place to birdwatch. It is the 4th largest county in Colorado ranging from high elevation mesas to the riparian areas of the Colorado and Gunnison rivers. Over 200 bird species live and breed in its many diverse habitats. This brochure describes a variety of places to “bird by car” for those who cannot use Mesa County’s many trails. Federal and State partners along with local birders provided suggestions of places that have pull-offs with a high probability of seeing birds. Enjoy the landscapes and birdlife of our amazing county.

**Legend:**

**Seasons:**
- Winter
- Spring
- Summer
- Fall

**Habitat:**
- Pinyon Juniper
- Riparian
- Desert
- Aspen Conifer
- Farm Land

**Road Conditions:**
- Paved
- Winding
- Dirt
- Difficult

**Accessibility:**
- Restrooms
- Parking
- Trail
Common Birds
- Along canyon walls: Peregrine Falcon, Red-Tailed Hawk, Turkey Vulture (April-October) and Canyon Wren
- In Pinyon/Juniper Woodlands: Pinyon Jay, Scrub Jay, White-Throated Swift, Hummingbirds (May-September), Juniper Titmouse and Western Blue Bird

Notes on the Area
- The monument has two entrances. These directions start at the West (Fruita) Entrance and should be used along with the monument brochure available at the entrance.
- Rim Rock Drive is 23 miles long, and has about 20 pull-outs with interpretive signage. The road has an 1,800 foot elevation gain, several tight switchbacks, and steep drop-offs. Not all of the pull-outs have accessible paths to the overviews, however, most provide excellent viewing from the car. The pullouts included here are the best for bird viewing, although at a few it will be difficult to see over the rim from the vehicle. They are listed for those who can view beyond their car.

Highline Lake State Park

Common Birds
- **Summer**: Osprey, Nesting Cooper’s Hawk, Northern Harriers, Kestrels, Loggerhead Shrikes, Bullock’s Orioles
- **Fall and Winter**: Canada geese, Mallard, Pintail Greenwing, Bluewing and Cinnamon Teal, Gadwall, Canvasback, Northern Shovelers, Buffleheads, Goldeneyes, Bald Eagles
- **Spring**: Sandhill Cranes, American Avocets, White Faced Ibis, Godwits

Notes on the Area
The Lake is closed to boating from September 30th to March 1st, although those dates may change due to weather conditions. This is the best time to bird the Park, because the summer season has a high number of power boat users and human activity around the lake.

Waterfowl and small game hunting is permitted Monday through Friday during the appropriate hunting season/s.

Park Areas

**Directions**: Take Exit 15 off Interstate 70 and follow the brown State Park Signs along the way. Signs are provided for both the main entrance to the Park as well as Mack Mesa Lake.

**Bookcliff Campground**
Park visitors must have a valid Campground Reservation and Park Pass to use the campground.

**Visitor Center and Boat Ramp**
The area has a large paved parking area that allows viewing of the lake and the marsh area to the east. The visitor center has additional information about the park and birds.

**Day Use Area**
A large grassy area for picnicking beside the lake is shaded by large cottonwood trees. Several parking areas are provided that will provide viewing from a car.

**Mack Mesa Lake**
Mack Mesa Lake is a separate area of the park. This area is located on the west side of the park, and has a separate entrance

0.0  Entrance off R Road

0.4  Picnic Area is beside the lake. (Accessible) The fishing dock’s path is accessible but the running grade of the ramp might be too steep for some.

0.6  Watchable Wildlife Overlook and viewing area

1.0  Nature Study Area - driving loop above the lake, accessible restroom in same area, picnic sites with shelter

1.5  Picnic site (not-accessible) best viewing from car
Horsethief Canyon State Wildlife Area

Seasons

Road Conditions

Habitat

Accessibility

There are no services within the site. There is only one accessible restroom and no other accessible features.

Common Birds
- Migrating waterfowl, Turkey, Raptors, Wading birds, Migrating Warblers, Songbirds
- There are often wintering flocks of sparrows, such as White-crowned, Song, Lincoln

Notes on the Area
- The Horsethief Canyon Wildlife Area is south and west of Fruita and marked with signs for its turn off from Highway 340. This is the highway used for the west entrance to the Colorado National Monument.
- The Wildlife Area is managed by the Colorado State Parks and Wildlife. Adjacent to the wildlife area is the McInnis Canyons National Conservation Area (NCA), which is managed by the Bureau of Land Management.
- Several parking areas along the road in McInnis Canyon NCA have restrooms. This wildlife area is active during hunting seasons.

Mile Markers

0.0 Entrance off Highway 340
1.3 Paved road turns to dirt
3.0 Pull-off on right (north) to overlook area above river
3.3 Pull-off for river viewing
3.7 Interpretive area with accessible restroom
4.0 Road to right (north) to small pond and Colorado River. There are gates at turnaround that could be CLOSED during Nesting Bird Season (March 15 – July 15). NO ACCESS OF ANY KIND IS ALLOWED.
4.9 Turnaround and a road may continue to other ponds. Gates may be CLOSED during the Bird Nesting Season WITH ONLY FOOT TRAFFIC ALLOWED.

Bureau of Land Management
970-244-3000
LAND’S END ROAD

COMMON BIRDS

- **Lower Elevation**: Juniper Titmouse, Blue-gray Gnatcatcher, Black-throated Gray Warbler, Mountain Chickadee, Chipping Sparrow, Mountain Bluebird, Northern Flicker.
- **Upper Elevation**: Scrub Jay, Black-capped Chickadee, Orange-crowned Warbler, Spotted and Green-tailed Towhee, Warbling Vireo, Downy Woodpecker, Hairy Woodpecker, Northern Flicker, Steller’s Jay

NOTES ON THE AREA

- This is a challenging graded dirt road on the west side of the Grand Mesa but the view is amazing and it takes the user through several habitats for birding. The road is steep, curvy and does not have guard rails.
- There is an elevation gain of about 5,800 ft in 41 miles. Road sign states “No Maintenance 10/15 – 6/1” but may be extended depending on the snow depth of the previous winter. Cell coverage is very limited. The lower section is closed to motorized use from December 1st to May 1st to provide for wintering wildlife by the BLM.

MILE MARKERS
From Highway 50 (West of Whitewater)

- **0.0** Turn off Highway 50 (Between MP 45 and 46) to Kannah Creek Road
- **2.8** Junction of Land’s End Road and Kannah Creek Road
- **9.1** U. S. Forest Service boundary cattle guard. This is the only designated pull-off by the USFS, but there are wide areas along the road that should provide safe pull-offs.
- **15.6** Wild Rose Picnic Area
- **15.8** Gate is closed if snow remains at high elevations
- **18.0** Land’s End Observatory was built 1936-37. The road was built by the Civilian Conservation Corp (CCC) and the Works Progress Administration (WPA) and finished in 1934
- **30.0** Highway 65 (paved)

US FOREST SERVICE
970-242-8211
Please call for road conditions
Common Birds
• Fox and Lincoln's Sparrows, woodpeckers, owls and water fowl in the mountain lakes

Notes on the Area
• The Grand Mesa is the world’s largest flat-top mesa with an elevation of up to 11,000 feet and is about 500 sq. miles in size.
• Mileage begins from the Grand Mesa exhibit area on highway 65 just off from I-70 at Exit 49.

Mile Markers
Mileage begins from the Grand Mesa exhibit area on Highway 65 just off from I-70 at Exit 49.

0.0 Grand Mesa Exhibit Area, Scenic Way
9.8 Turn off to Collbran and Vega State Park
19.0 Powerhorn Ski Area (private property)
20.5 Grand Mesa National Forest Boundary. Interpretive signs are provided, as well as parking.

Plateau Valley
OE Road (off Highway 330) to ME 3/4 Road

Seasons

Road Conditions

Habitat

No Accessibility

This area has limited cell phone service and no services.

Common Birds
- Western Meadowlark, Mountain and Western Bluebirds, Western Kingbird, Green-tailed and Spotted Towhee, Savannah Sparrow, Cordilleran Flycatcher, Blue Grosbeak, Yellow Warbler, Bobolinks

Notes on the Area
- It is important to follow the mileage given as road signs and mileage posts can be missing.
- The roads change from paved to graded dirt and back throughout this drive. The roads are Mesa County maintained through agriculture lands. Please pull off the roads for courtesy to the locals as well as others including agricultural equipment. There are no services or restrooms and limited cell coverage.

Mile Markers
Highway 65 begins at Exit 49 off from Interstate 70. The mileage begins at the Plateau Valley exhibit area, just off the Interstate.

0.0 Plateau Valley interpretive signs and parking
9.8 Highway 330-To Collbran and Vega State Park
18.1 Turn onto OE Road (after mileage post 8 on Hwy. 330) Road turns to dirt
19.2 Big Creek Bridge, Cottonwood Grove
19.9 Turn at Intersection with County Road 57 (No road sign) paved. Scan the miles of fences for birds.
20.2 Eagalite Cemetery
21.2 Intersection with ME ¾ Road. This road can be birded in either direction.
Unaweep Scenic Byway

Common Birds
- Mountain Bluebird, Ash-throated Flycatcher, Western Meadowlark, American Kestrel, Spotted Towhee, Red-Tail Hawk, Lark Sparrow, Golden Eagle

Notes on the Area
- This section of the Byway is 40 miles long and has narrow shoulders but many safe pull-offs.
- The highway is open all year round (with the exception of the Divide Road) but the pull-offs may not be plowed in the winter months.

MP: 156

Notes on the Area
- Possible sightings of a variety of waterfowl in the spring.
- A window mount with a scope or camera would be helpful.

0.0 Juction of Highway 50 and 141
0.03 Whitewater ponds
1.7 East Creek Day Use Area

**Notes on the Area**

* Big Horn Sheep may be seen in this area.

---

**MP: 139.8**

14 Divide Road Turn Off (FS 402)

**Notes on the Area**

* The US Forest Service lists this as an important birding site that goes through sage parks, pine and aspen habitats.
* It is important to check road conditions for late or early snow.

---

**MP: 136 - 130**

18 - 24 Bob Wilson's Mountain Bluebird Trail

**Notes on the Area**

* Over 40 nest boxes are monitored and maintained by Audubon of Grand Valley.
* Turkeys and a large herd of elk are often seen in this area.
19.7  Unaweep Divide

**Notes on the Area**

- Unaweep is a Ute word meaning “canyon with two mouths”.
- The east side drains to the Gunnison River and the west to the Dolores River. This is a unique geological feature.

34.1  Unaweep Seep Viewing Area

**Notes on the Area**

- This is an Audubon Important Birding Area and a BLM Area of Critical Environmental Concern.
- Nokomis Fritillary Butterfly can be seen in this area.

36.9  West Creek Picnic Area

40  Town of Gateway

**Notes on the Area**

- Gateway General Store restrooms are open when the store is open. Please call 970-931-2876 for store hours.
